

CINNAMON DEPOSITOR

CD-2

Anets accessories

Anets Accessories are engineered to stand the stress of stepped-up production schedules and to turn out more uniform quality products. Anets Accessories have advanced design that automatically eliminates virtually all hand operations, saves up to 50% in labor costs. Many also available as portable units.

Deposits desired amount of dry cinnamon in 19 selected areas across the belt.

Conserves material and improves product quality through uniform depositing.

Automatically starts when dough piece passes beneath depositor and shuts off at end of dough piece—no cinnamon is deposited on belt.

Easy to set flow adjuster has visual hole size indicator.

Adjustable rocker arm agitates the cinnamon to produce a uniform flow.

Anets

Adjustable contact rollers actuate micro-switch to automatically start depositor when dough strips are beneath unit. Automatically shuts off at end of dough piece.

No cinnamon deposited on belt.
