

DOUGH OILER

DO-3

Anets accessories

Anets Accessories are engineered to stand the stress of stepped-up production schedules and to turn out more uniform quality products. Anets Accessories have advanced design that automatically eliminates virtually all hand operations, saves up to 50% in labor costs. Many also available as portable units.

Individually adjustable valves control the area of oil application to the dough piece.

Powerful solenoid operates gate which controls flow of oil to roller.

Dough-driven machined aluminum roller quickly adjustable to type and thickness of dough strip.

One-piece aluminum hopper removable for easy cleaning.

Thermostatically controlled electric heating elements keep oil at proper viscosity for uniform application.
