

**SEVENTEEN BUN PAN
LOW HEAD ROOM**

LH-17

**INSULATED
CABINET PROOF BOX**

FOR USE WITH ELECTRIC OR GAS HUMIDIFIER

**MODEL
LH-17**

Only 73" high.

Holds 17 - 18" X 26" bun pans or 19" X 19" proof screens.

Ideal for small bake shops or doughnut shops and as a baked goods storage cabinet.

Sanitary construction throughout.

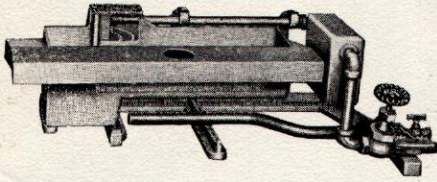

Easy to clean and maintain.

Walls, ceiling and door fully insulated and moisture-proofed.

Door re-inforced at hinges and at handle.

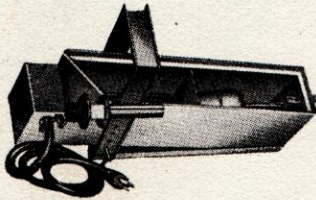

Available in any combination of baked white enamel exterior or stainless steel front and two sides with aluminized steel or stainless steel interior.

MORE THAN 35 YEARS OF EXPERIENCE IS BUILT INTO ALL ANETS QUALITY EQUIPMENT.

BALANCING TYPE GAS HUMIDIFIER:

Generates humidity and temperature for proofing. Water level is automatically controlled. Gas burner is adjustable. Notched gauge and lever can be set for varying degrees of humidity. Water tank housing and frames of cast aluminum. Size: 12½" wide, 26" long and 7½" high. Burner capacity 8000 B.T.U.

AUTOMATIC ELECTRIC HUMIDIFIER:

Immersion heating coil has 1600 watt output on 15 amp., 115 Volt A.C. current. Coil is partially exposed at various elevations, as humidity is manually controlled by elevation of tank. Automatic float water feeder has ½" water strainer inlet. Temperature is automatically controlled by precision thermostat. Stainless steel construction. Overall size 22" long, 14" high and 8" wide.

CONSTRUCTION:

Full ½" metal-clad insulated walls, door and ceiling. Moisture-proof. Interior made of 24 gauge aluminized steel. Exterior made of 22 and 24 gauge galvanized steel. Provided with two heavy chrome-plated steel hinges and one lock.

CAPACITY:

17 - 18" X 26" bun pan or 19" X 19" proofing screens.

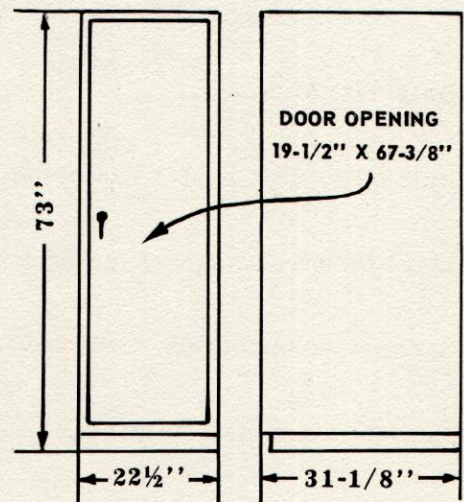

INSTALLATION REQUIREMENTS:

Proof box must be placed on level floor. Service requirements determined by choice of humidifier.
