

MODEL 770 SHEETER TABLE

ANETS

FOOD PREPARATION SYSTEMS

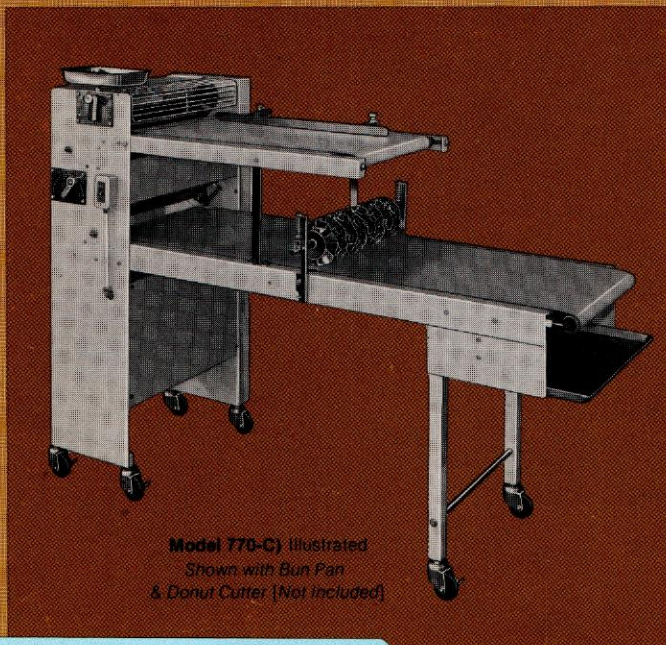

Model 770-A Illustrated
Shown with Bun Pan
& Donut Cutter [Not Included]

VERSATILE

The Model 770 Sheeter Table is supplied assembled to either the 770-A or 770-C configurations.

Unique design allows you to change at any time, on site, without any additional components, from one model to the other. Adaptable to future expansion.

Model 770-C Illustrated
Shown with Bun Pan
& Donut Cutter [Not Included]

The compact Anets 770 Sheeter Table with stainless steel roller will gently sheet all types of yeast raised and puff paste doughs with uniformity of thickness . . . you can step up production while you improve on quality. Heavy-duty steel construction is specially-coated with a scratch resistant vinyl finish that provides easy cleaning and more sanitary operation. The Sheeter has positive roller adjustment to provide consistent sheeting for greater product uniformity . . . eliminates costly wastes. The Anets 770 has a variable speed drive that lets you match your rate to your production requirements. Full range variable speed is controlled by simply turning a crank to desired setting, no tools required. Infeed and make-up table belt is white neoprene impregnated. Unique cutter holder brackets fold down and away so you may use table for additional jobs. The compact design allows use in reduced work areas, casters add mobility.

MODEL 770 SHEETER TABLE

EXTRA QUALITY FEATURES

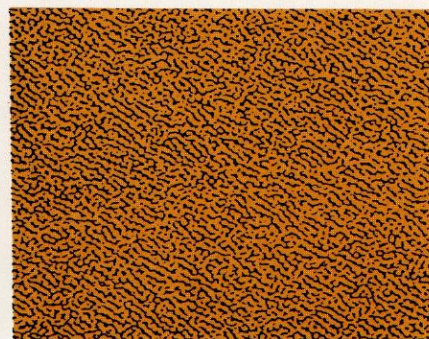

IMPROVED SAFETY DESIGN

The Anets 770 has heavy gauge wire guards located at critical safety points in the front and back of the sheeter to provide proper protection from sheeter rollers. Guards are electrically interlocked to prevent operation of sheeter with guards opened.

POSITIVE ROLLER ADJUSTMENT

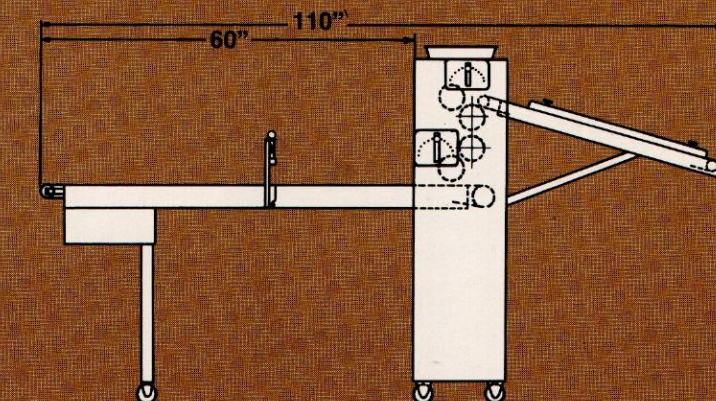

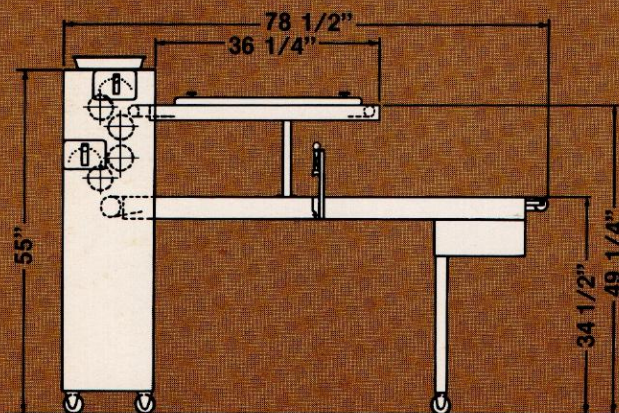

The stainless steel sheeter rollers have positive snap set adjustment from 0 to 1" in 1/32" increments. Rollers are "tied together" on both ends to provide greater rigidity for more uniformity and consistency.

DURABLE VINYL FINISH

The model 770 is specially-coated with a textured vinyl finish that is easiest to clean. Durable paint is scratch and mar resistant, provides sanitary operation.
