

TWO PASS SHEETER-MOULDER

DESIGNED FOR THE NEEDS OF GROWING BAKE SHOPS

**MODEL
MDR 6 - SMB**

Pre-sheets without tearing: rich Danish doughs, puff-paste and roll-in doughs.

Sheets and cross-grains: all types of sweet doughs, pie dough and pizza pie dough.

Three rollers with high precision ground finish. Self-locking adjustment on upper and lower rollers. Adjustment slots numbered for precision settings.

Belt neoprene impregnated for sanitation.

Moulding attachment adjustable to 29 widths. Moulds dough pieces from 3'' to 24'' wide, such as: pan, French and rye breads. Tapered ends if desired. Will mould two pieces simultaneously

Rapid change from one product to another. Moulding board does not have to be removed from machine to run sweet doughs.

Also available without moulder attachment and infeed belt. See Bulletin No. 505 on MDR-6SM.

MORE THAN 35 YEARS OF EXPERIENCE IS BUILT INTO ALL ANETS QUALITY EQUIPMENT.
