## Model RO-A7 IC

Specifically designed to provide high-performance ice cream packaging. The RO-A7 IC provides exceptional versatility—in fill range, in container selection, in product range. Fills 3-oz. through half-gallons. Quick changeover allows efficient filling of a wide range of paperboard and plastic container diameters. Capable of filling fruit, nut and candy product, the RO-A7 IC features spinner lifters for swirl filling. Stainless steel fabrication meets or exceeds 3A, USDA and FDA standards.

**AUTOPROD Inc.**

# VERSA-PAK Ice Cream Rotary Filler/Capper

For Plain, Fruit, Nut and Swirl Ice Cream Products.

## Model RO-A7 IC

Autoprod's VERSA-PAK Ice Cream Rotary Filler/Lidder provides advanced ice cream filling capabilities by combining high fill speeds with quick and easy product and container changeover. The RO-A7 IC allows production managers to adjust to rapidly changing sales patterns. Modular dispensing system and easy cleaning stainless steel construction makes changeover, usually in 15 minutes or less, simple and straightforward.

- Fill Range—Fills 3-oz., dual or single pints, quarts and half-gallons.
- Product Versatility—Fills plain, fruit, nut, candy and swirled ice cream product.
- Container Dispenser—Modular dispensing system provides quick, easy changeover, usually in 15 minutes or less, for filling a wide range of paperboard or plastic container diameters.
- No Drip Filling—Positive cutoff valves provide clean and accurate filling.
- Swirl Filling—Adjustable-speed spinner lifters for swirl filling are standard.
- High Production Speeds—Capable of running at speeds up to 65 indexes/minute, or 130 containers/minute when running in dual mode.
- Lid Unscrambler—Optional lid unscrambler for high efficiency.
- Lid Applicator—Wipe-on type for single or dual filling.
- Coder—Branding type bottom coding optional.
- Container Tippers—Optional alternating container tippers for increased packing efficiency.
- Easy Cleaning—Stainless steel construction facilitates quick, thorough washdown and changeover.
- Meets or exceeds 3A, USDA and FDA standards.
