

2-EZ XL

Case Erector / Bottom Sealer

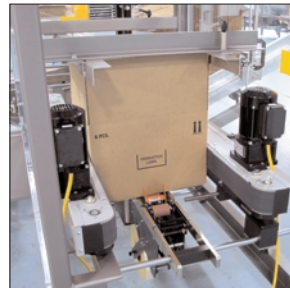

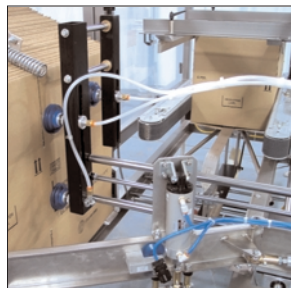

The new 2-EZ XL is a no-compromise solution for erecting and sealing larger cases. This cost-effective system features heavy duty components, positive case opening and transfer, and belt drive case sealing for perfect cases every cycle. The 2-EZ XL is the perfect system for increasing productivity and throughput in your case packing process.

Features

- Erects large cases up to 20" wide
- Heavy duty 2"x3" welded tubular steel framework
- Easy load case magazine
- EZ-adjust no-tool changeover
- Safety interlocked guarding
- Side-belt drive case sealing

Options

- Stainless steel framework
- High capacity powered magazine
- Heavy duty machine casters
- 3" or 6" 3M Accuglide™ II Tapehead

2-EZ XL Case Erector

Features and Specifications:

- Heavy duty welded tubular steel construction
- Right or left hand execution
- Vacuum blowoff every cycle prevents corrugated dust buildup
- Allen Bradley PLC controlled
- Lockout / tagout safety disconnect
- 1 Year comprehensive warranty on non-wear items
- Lifetime warranty on structural framework
- Rugged construction for 3-shift production environments

Electrical Requirements

110 volt / single phase power standard

Air Requirements

80 PSI clean air supply. Air consumption is case size dependent.

The 2-EZ XL

easily handles the widest range of case sizes and styles including double and triple wall corrugated cases up to 20" in width.
