# COMPACKER II ABF-3

The COMPACKER II ABF-3 is a custom engineered automatic bottom load case packing machine. The machine's efficient design is tailored to your particular requirements and

provides the capabilities of case erecting, product accumulation, bottom loading and sealing. Through the use of production tested designs backed by a quarter century of

COMPACKER experience and proven performance, the COMPACKER II ABF-3 provides optimum productivity and cost efficiency.

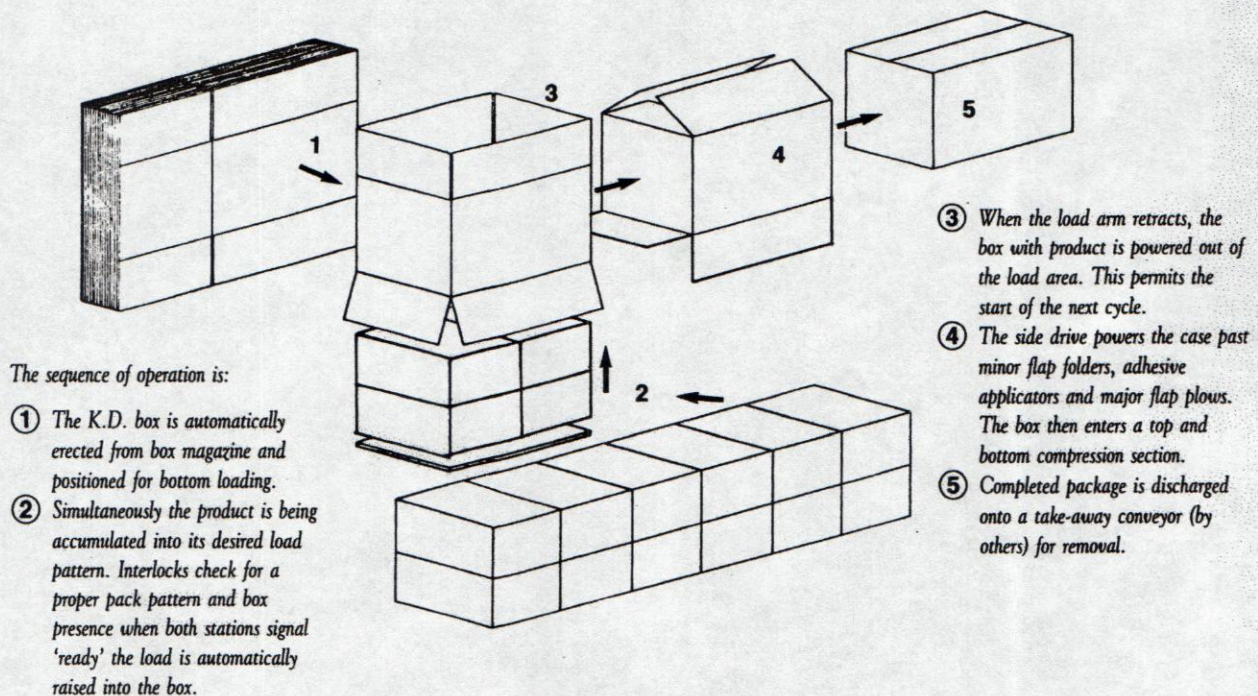

## FEATURES

- \* Fully automatic operation
- \* Choice of case designs - RSC, FOL, CSSC, or HSC
- \* Accumulates and loads product in an assortment of shapes and sizes
- \* Easy change-over - most adjustments with hand cranks, requiring no special tools
- \* Easy-to-load large capacity case magazine
- \* Speeds up to 12 cases per minute - depending on line speed and product size
- \* Choice of adhesive types - hot melt, cold glue or pressure sensitive tape
- \* Ruggedly constructed for years of reliable service
- \* Electrical (P.C. Logic) or Pneumatic controls
- \* Simple, easy maintenance
- \* Many extra options available according to customer need

## Here's how simply your COMPACKER II ABF-3 will operate:
