

Wrap-around case packers

CASE FORMATION

Products are collated in the required configuration and then smoothly transferred to the carton blank. Delicate control ensures perfect transfer.

WRAP-AROUND CASE PACKERS WITH CASE FORMATION AND CLOSURE IN CONTINUOUS MOTION TO PACK PRODUCTS INTO CASES OR TRAYS.

THE NEW SERIES, PL@NET, IS THE RESULT OF DIMAC'S LONG TERM EXPERIENCE IN CASE PACKING.

PL@NET MACHINES ARE AVAILABLE IN THREE VERSIONS:

- **B.I. SEPARATION**
OUTPUT UP TO 30 CASES PER MINUTE
- **C.A.D. SEPARATION**
OUTPUT UP TO 45 CASES PER MINUTE
- **CONTINUOUS ELECTRONIC SEPARATION**
OUTPUT UP TO 60 CASES PER MINUTE

PL@NET MACHINES ARE BASED ON "TOP LEVEL" TECHNOLOGY:

- **CONTROL OF ALL MACHINE FUNCTIONS**
- **EASY AND PRECISE SIZE CHANGE**
- **HIGH FLEXIBILITY TO HANDLE EVERY KIND OF CONTAINER**
- **MACHINE AUTOMATIC CHECK-UP**
- **EASY MAINTENANCE**
- **HIGH ACCESSIBILITY**
- **ROBUST CONSTRUCTION**

IT IS POSSIBLE TO COUPLE THE PL@NET CASE PACKERS WITH THE ST@R SHRINK WRAPPERS TO MAKE COMBINED LINES:

PL@NET COMBI 30
UP TO 30 PACKS/MINUTE

PL@NET COMBI 45
UP TO 45 PACKS/MINUTE

PL@NET COMBI 60
UP TO 60 PACKS/MINUTE

CARTON CLOSURE AND EXIT

The internal flaps folders are driven by servomotors allowing automatic adjustment according to the size required (patented). The glued flaps are kept closed throughout the compression section to allow the hot melt glue to set correctly.

INFED GUIDE RAILS

The separation system ensures perfect laning of loose products and improved label protection. For pre aligned products, the machine can be equipped with additional guides and sensors. The infeed guide rails can be adjusted via a hand wheel with digital counter for faster changeovers (option).

BLANK MAGAZINE

High capacity and easy to load. The blank magazine is fully accessible to make for easier and faster loading. The patented pick-and-place system ensures maximum precision and reliability. It is possible to fit additional modules to increase the magazine capacity and therefore reduce operator attendance (option).
