

HS-II SERIES™

Portable Hand Sealers

The New Portable Hand Sealers From Doboy.

The new Doboy HS-II Series™ Portable Hand Sealers offer lightweight packaging performance. The HS-BII™ seals supported films and the HS-CII™ seals unsupported films. Both deliver a consistent, high-quality seal for a wide variety of packages.

NEW

Unsupported Films.

Films such as polyethylene and vinyls are sealed by the HS-CII™.

Supported Films.

Films such as cellophane, glassine, paper laminates and military materials are sealed by the HS-BII™.

Positive Seals.

Materials are sealed using precise temperature, pressure and dwell time for secure, hermetic seals.

Uniform Seals.

Seals on all bags and films share the same clean, professional look.

Doboy

HS-II SERIES™

Light On Weight. Heavy On Performance.

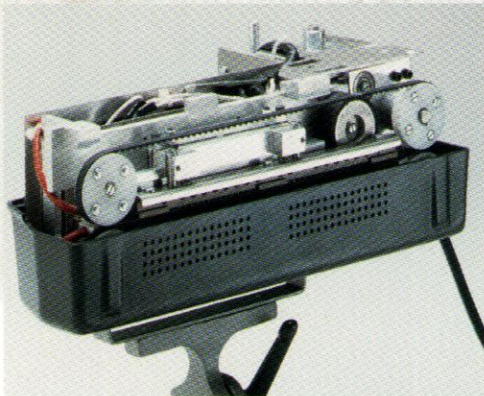

The HS-BII™ and the HS-CII™ are lightweight, dependable hand sealers. Both seal a wide variety of materials and offer brushless AC motors for high durability, increased up-time, and more cost-efficient operation.

Temperature indicator signals when machine is up to the desired sealing temperature.

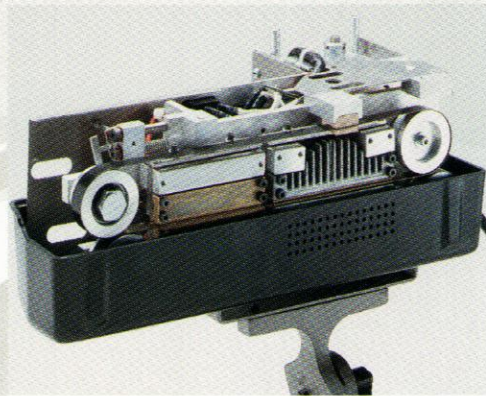

Temperature and pressure can be adjusted to meet specific package requirements.

Compression rollers offer separate drives to ensure wrinkle free seals. (HS-BII™ model only).

Both the HS-BII™ and the HS-CII™ include cast bases for table top mounting.

HS-BII™

HS-CII™

The HS-BII™ dependably seals supported films such as cellophane, glassine, and paper laminates.

HS-BII™ timing belt assures positive grip of material and clean, quiet operation.

HS-CII™ cooling bars set the seal for immediate handling.

The HS-CII™ dependably seals unsupported films such as polyethylenes and vinyls in thicknesses from 1-6 mil.

Specifications

Length: 14"
Width: 6 1/8"

Height: 6 3/4"
Throat: 2 1/4"
Weight: 13 lbs.

Electrical: 110/60/1
Speed: 200"/min
