# SBF™

## Smooth Product Transition.

The Model SBF™ Feeder provides especially smooth transition of product to wrapper because of smaller nose rollers utilized at the transfer point.

**Wrapper Interface and Infeed Conveyor.**  
Allows easy tie-in to wrapper.

**Programmable Control Panel.**  
Easy to use and understand, programmable up to 8 products.

**14 mm Diameter Nose Rollers.**  
Guarantee smooth transition of product from belt to belt. Segmented for added strength and longevity.

**Cantilevered Design.**  
Provides improved sanitation and easy belt removal.

**Multiple Drives.**  
Backlog and metering belts servodriven. Accumulating belt uses A.C. variable frequency.

**Steel Plate Frames.**  
Steel-it finish protects against rust and maintains great looks.

**Product Control Eyes.**  
Maintain optimal speeds of wrapper and feeder. For precise product control.

**Easy Access.**  
Means safe, quick and easy maintenance of belts and parts.

## Specifications
