

Domino C-Series plus

For high quality graphics, text and bar codes

- Fastest 70mm high resolution printer on the market
- Largest ink system in the industry
- Widest variety of high resolution print head options
- Lowest power consumption for high resolution printing

Main Features:

High reliability, low maintenance

- Integrated print head and user interface in a self-contained unit
- Consumables can be changed while the printer continues to code
- Filter change with every consumable change

Connectivity

- Built-in ethernet port enables printers to be networked locally or enterprise-wide
- On-board message creation software and powerful off-board image design software
- Central message store, retrieve mode and secure message back-up reduces PC requirements on-line
- Ability to track production changes and measure Overall Equipment Effectiveness (OEE) performance

Options:

- Remote print head options for coding flexibility
- Run up to 4 print heads from the multi-head base option

Key Benefits:

- C-Series features improve OEE performance of manufacturers
- Printing onto blank cases reduces stock holding
- Open systems provide non-proprietary label creation and re-use of existing IT infrastructure
- Database-driven designs ensure correct data is printed
- Low power consumption helps manufacturers meet their environmental commitments

Availability

- Robust, compact design and stainless steel construction ensures maximum uptime
- Intuitive flexible message creation options reduce operator errors

Performance

- Industry leading large volume ink supply enables consumable change during printing
- High speed head for increased throughput
- Intelligent ink system for reliable ink delivery

Quality

- Instant startup reduces delays and rejects
- Quick and simple message changeover reduces coding errors

High quality text and graphics
