## Cappers & Uncappers

### Hand-Held Air-Powered

Capping two gallon cans in the case with an HCH-18 portable hand capper.

Uncapping a case of returnable bottles with an HCH-18L before washing at a soft drink plant.

Model Number	Maximum Cap Size	Weight (Without Chuck or Insert)
HCH-18 capper HCH-18L uncapper	to 50 mm	1½ lbs.
HR-18 capper/uncapper	to 50 mm	2 lbs.
HCH-10 capper HCH-10L uncapper	to 100 mm	2¼ lbs.
HR-10 capper/uncapper	to 100 mm	2½ lbs.

(A special wear and corrosion resistant stainless steel uncapping chuck with a built in ejector is necessary for soft drink applications. It is available in 28 and 38 mm sizes to fit most soft drink caps.)

All units supplied with a filter/lubricator stand and 25' of air hose so that the operator can work along a conveyer line. (Air required: approximately 8.5 cu. ft. per minute at 75-85 lbs.)

Counter-balancers are available for all hand held units. Ask us for details.
