Special chucks can be furnished including soft drink uncapping chucks (description on back page), steel chucks with knurled, serrated or polished contact surfaces, and chucks contoured to fit unusually shaped caps. Send us a sample cap for a quote.

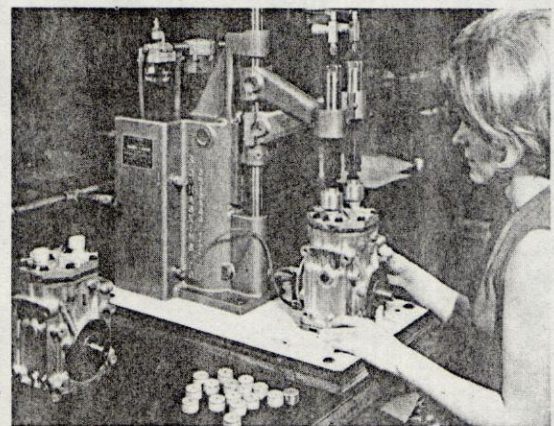

## Got a Special Need?

We can make "special" chucks to fit your "special" caps.

This firm wanted four times the production by capping four small bottles at a time!

Not all "caps" go on containers!  
This double headed unit screws protective dust caps onto automotive air conditioning compressors.
