TG250LF/TG320LF/TG450LF

LF Series

Key Features

- Entry-level Intermittent Motion VFFS Technology
- User-friendly operator interface with Allen-Bradley CompactLogix control system and PanelView Plus 700 color touchscreen operator interface
- Full synchronization for printer labellers and feed systems
- Low maintenance
- Full configuration for polyethylene and/or heatseal materials
- Simple and fast bag size changeover with one-piece forming sets
- Jaw obstruction detection, incorporating instantaneous machine stoppage
- Independent temperature adjustment

Barry-Wehmiller

TG250LF/TG320LF/TG450LF

LF Series

The LF Series has a long-standing reputation as a solid, durable member of the TG Series of VFFS machines.

With entry-level intermittent motion, this system features off-the-shelf Allen-Bradley control system with PanelView 700 color touchscreen operator interface. Sealing systems for laminate and polyethylene packaging materials can be customized to meet your application requirements.

Production Rate

Up to 70 bags per minute

Package Range

Minimum Width: 60 to 80mm (2.36" to 3.15")
depending on frame size

Maximum Width: 250 to 450mm (9.84" to 17.7")
depending on frame size

Maximum Length: 400 to 600mm (15.74" to 23.62")
depending on frame size

Power Requirements

20 Amp, 3-phase neutral and earth, 5KVA

Air Requirements

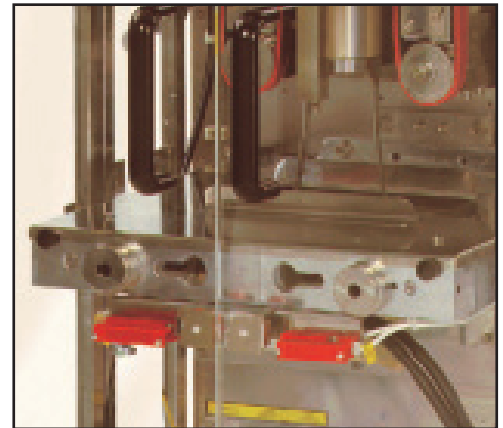

Based on 60 bags/min.:

Heatseal = 705 litres/min (20 cu.ft/min)

DigiPoly = 1340 litres/min (38 cu.ft/min)

A few of the many available options include stainless steel construction, various hole punches, tear notches, code daters, gas flushing, static eliminators and tucking devices. We have extensive experience in integrating a wide variety of feed systems including scales, augers, volumetrics and pumps for a wide variety of applications.

Let us customize the LF system to meet your specific requirements. Whether it is a specific bag style or a production need, the LF series of machines are proven performers.

Servo-driven, intermittent motion cross seal jaws.

Simple and fast bag size changeover with one-piece forming sets.
