

# RIEMPITRICE DI BORSE TERMOSALDATE IN RETE O RETE/FILM BFS-132

## **FILNET & NETBAG TYPE BAGGING UNIT mod. BFS-132**

Automatic high-yield machine, suitable for filling heat-sealed bags made entirely of net or half net half preformed netbar polyethylene film from reel. The BFS-132 cuts the bag, opens it, waits for product unloading and by means of a heat sealer closes the bag. On request applies an adhesive label on the upper band showing producer's name, weight, price, etc. Size of bags 29-34-39 cm. Pack weight from 2 to 6 kg.

## TECHNICAL DATA

OUTPUT

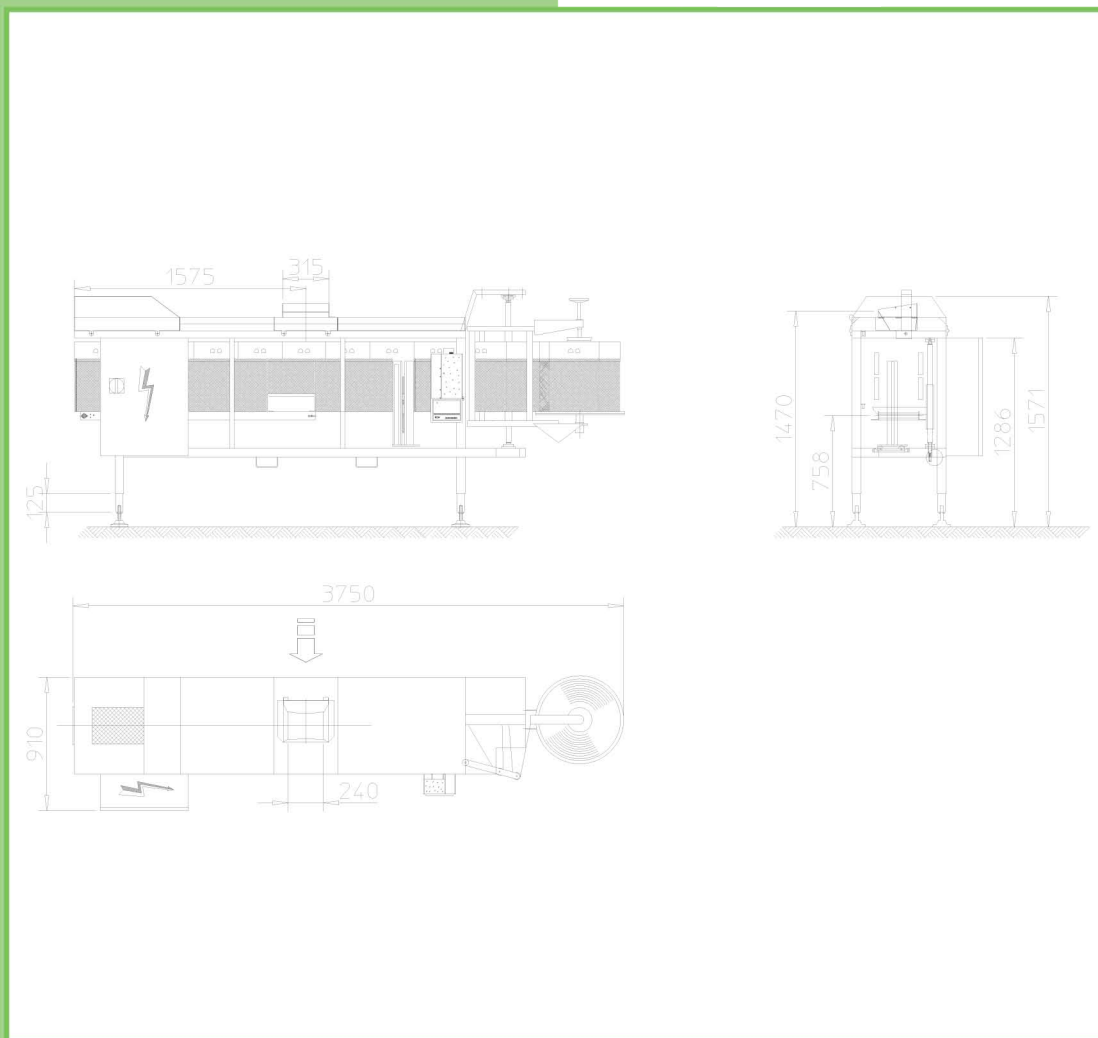

14 to 26 packages/minute approx.  
depending on the weight

INSTALLED POWER

3 kW · 50 Hz · 400 V

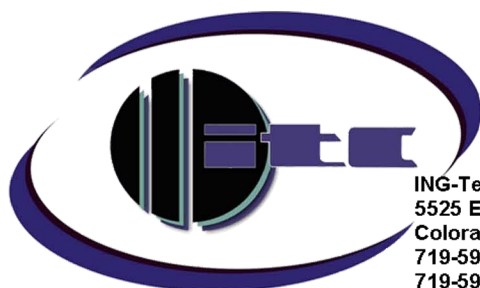

AIR CONSUMPTION

80 NI/min · 6 bar
