ST@R T 45

Modularity:

machine can be modified after the installation at customer location

Quick and Easy Size Change:

without setting tool or key

Patented Film Cutting Device:

completely innovative

Electronic Control System:

completely open and easy learning, maintenance and managing

Connection with Dedicated Modem:

easy link for remote assistance and possibility of monitoring the whole machine, downloading for updating and programs

Max output

45 packs/minute

Power installed

75 kW

Air consumption

90psi (100 NI/1')

Max film roll diameter

1'-7 11/16" (500 mm)

Film thickness

40-80 micron

Pad min dimensions

7 1/4" x 4 11/16"
(185 x 120 mm)

Pad max dimensions

1'-7 11/16" x 1'-2 3/16"
(500 x 360 mm)

Tray min. dimensions

7 1/16" x 4 11/16"
(180 x 120 mm)

Tray max. dimension

1'-7 11/16" x 1'-2 3/16"
(500 x 360 mm)

Color

RAL 9007
