CCW-410SL-II

The semiautomatic multihead weigher, CCW-410SL-II, is ideal for long, difficult-to-handle items, such as asparagus and other agricultural products. The CCW-410-SL-II maximizes efficiency and slashes giveaway.

DIMENSIONS

Units:mm

SPECIFICATIONS

Model	CCW-410SL- I
Weighing Capacity	300g
Weighing Range	50g to 300g
Accuracy for Single Product (*)	\bar{X} =1 to 10g (max)
Maximum Product Size	Length \leq 240mm Diameter \leq 40mm (per single dump)
Weighing Speed (**)	Up to 25 W.P.M.
Controller	8 bit microprocessor
Weigh Cell	Double-beam strain gauge load cell
Target Weight	Digital entry via numerical keypad
Setting	(Minimum Graduation) 0.2g
Weight Display	Liquid crystal display
Air Pressure	5kgf/cm ² 30N ℓ /min.
Material	Product contact surfaces are made of stainless steel or other sanitary materials.
Options	Various options are available. Please contact Ishida distributors.

NOTE: Specifications subject to change without notice.

(*) : Depends on target weight, weighing speed and conditions.

(**) : Depends on product shape, product density, target weight, etc.
