

CCW-412SP-III

Waterproof Type

Touch Key Display

System Engineered

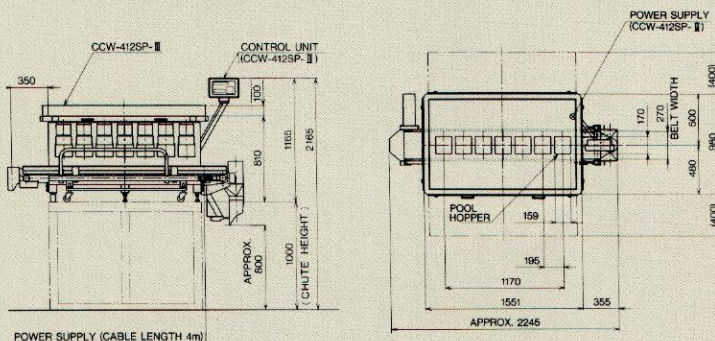

Easy Cleaning
and Maintenance

This semiautomatic multihead weigher gives you all the functions you need to weigh difficult-to-handle products like meat, poultry, marine and agricultural products, expanding the range of applications for Ishida's renowned combination weighing system. Being of fully waterproof construction, this weigher can be cleaned easily with running water.

DIMENSIONS

Units: mm

SPECIFICATIONS

Model	CCW-412SP-III
Weighing Capacity	2,500g
Weighing Range	50g to 2,500g
Accuracy for Single Product (*)	\bar{X} = 5g to 10g (max)
Maximum Volume of Weighing	4,500cc (per single dump)
Weighing Speed (**)	Up to 25 W.P.M.
Controller	8 bit microprocessor
Weigh Cell	Double-beam strain gauge load cell
Target Weight Setting	Digital entry via numerical keypad (Minimum Graduation) 0.2g
Weight Display	Liquid crystal display
Air Pressure	5kgf/cm ² 100N \bar{L} /min.
Material	Product contact surfaces are made of stainless steel or other sanitary materials.
Options	Various options are available. Please contact Ishida distributors.

NOTE: Specifications subject to change without notice.

(*) Depends on target weight, weighing speed and conditions.

(**) Depends on product shape, product density, target weight, etc.
