

KING LABEL GLUERS

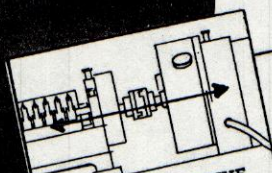

The Model F — for 99% of all manual production labeling—packing—wrapping—mailing.

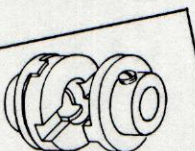

Cut any labeling cost up to 50%. Use the "F" for labels, paper tape, sized cloth, foil or any thin, flexible material.

Low cost, low maintenance, long life. Continuous savings in labor, printing cost, materials and equipment.

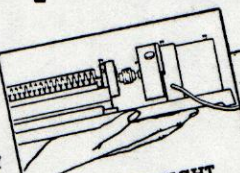

The finest precision-made gluer, featuring . . .

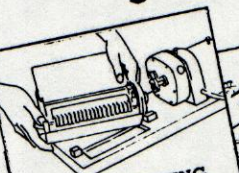

KING DIRECT DRIVE
No pulleys or belts. No worm gears. Simple, compact, efficient, proved.

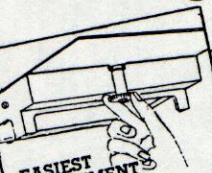

KING FLEXIBLE-PLAY COUPLING
Cannot bind. No strain on shaft or bearings. Exclusive 3-piece assembly.

LIGHTEST WEIGHT
All-aluminum glue-pot, base and motor housing. Really effortless portability.

EASIEST CLEANING
Entire gluing unit lifts free instantly, without tools. Just rinse or set in water.

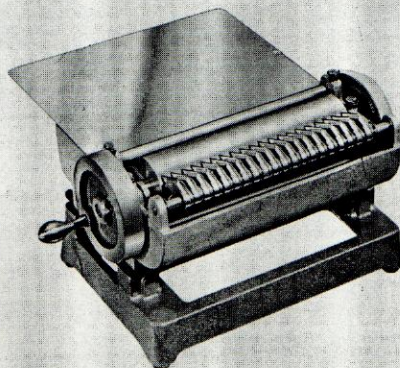

EASIEST ADJUSTMENT
Convenient adjuster wheel positively controls glue film thickness. Handy, quick, accurate, sure.

LOWEST MAINTENANCE
Shaded pole motor eliminates starting mechanisms that wear out. Precision machining. Brass rollers, guides and feed plate. Phosphor-bronze fingers. Oilite bearings. Corrosion-proof.

**CONVENIENT
EFFICIENT
ECONOMICAL
VERSATILE**

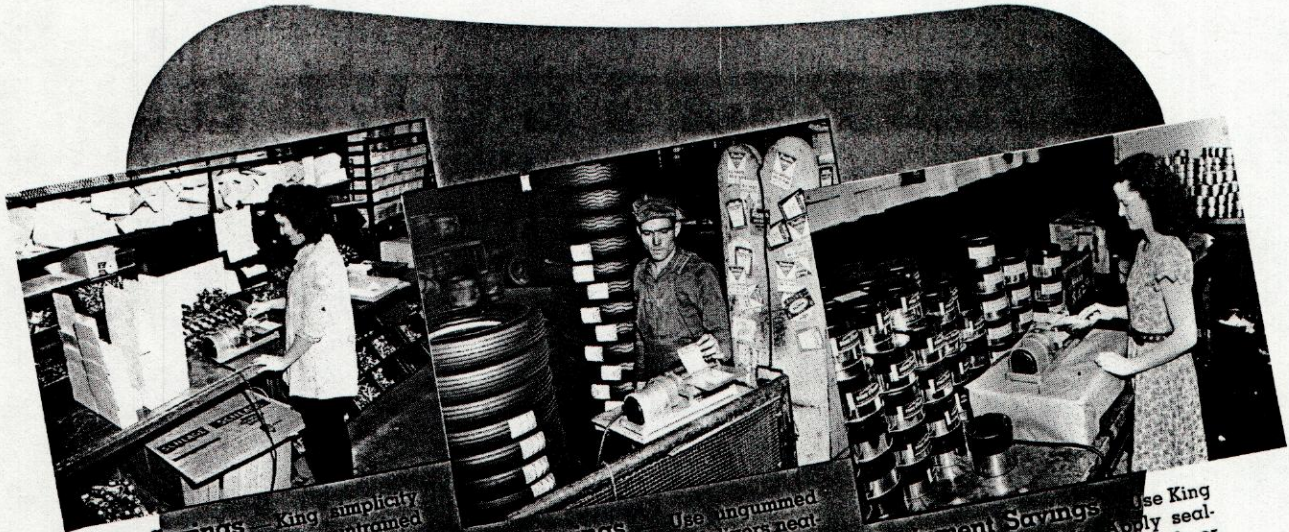

The special hand-drive unit. Ideally suited to shipping room work, packing counters, mail-order departments, catalog houses, department stores, mail rooms and many others.

KING
FINE
GLUERS

King

King Label Gluers are tops for short runs, all-day runs, intermittent use, and for variety runs of several kinds and shapes. Switch from one job or location quickly. Save up to 50% on labels alone by using ungummed materials. Speed up production . . . 90 feet or 30 to 75 pieces per minute. Use practically any adhesive. Eliminate old fashioned, motion-wasting and messy glue-pot-and-brush.

Labor Savings — King simplicity makes operation easy for untrained workers. More than one operator can label from a single gluer.

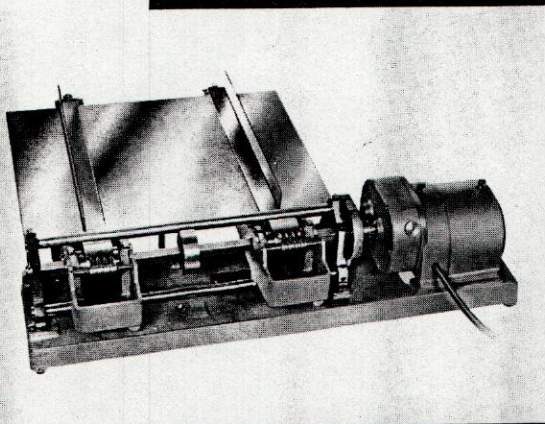

Cost Savings — Use ungummed material and save. King delivers neatness, efficiency, high production, for competitive items.

Equipment Savings — Use King Gluers for double duty. Apply sealers (ungummed strips) and labels or shipping tags with only one machine.

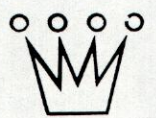

The Model F King Gluer comes in two sizes, 6 inch and 9 inch. Each is available in motor drive and hand drive. F6 handles any length or shape up to 5¾ inches wide; F9 up to 8¾ inches wide. Model F is stocked as a solid-roller, "all-over" Gluer. It is also available as a strip or edge gummer.

	LENGTH	WIDTH	HEIGHT	NET WT.	SHIP WT.
F6 (Motor)	16¾"	9½"	5½"	18 lb.	20 lb.
F6H (Hand)	10¼"	9½"	5½"	10 lb.	13 lb.
F9 (Motor)	20½"	12½"	6"	21 lb.	25 lb.
F9H (Hand)	14"	12½"	6"	14 lb.	17 lb.

Standard motors are 1/20th H.P. single phase, 115 volt, A.C. with grease sealed ball-bearings, 7 foot grounded 3-wire plug-in cord and on-off switch. 230 volt, A.C. single phase motors as well as explosion-proof motors are available.

King makes other gluing machines, too. A full line of all-over and strip gluers for sheets up to five feet wide, marginal gluers, varying thickness units, heated units and combination machines. Thirty years of practical experience and many thousands of units in use qualify King for service and quality. Send in your special problem materials. Write for special literature.
