

FC-330 MAGNUM

COMMERCIAL/INDUSTRIAL FOOD PROCESSOR
ALL STAINLESS STEEL CONSTRUCTION
4 HP VARIABLE SPEED MOTOR

FC-330 with 13" diameter
universal feeder

The FC-330 Magnum is a universal, high volume food preparation machine used in processing plants and in high volume commercial and institutional kitchens.

Slice, dice, shred, grate, and strip-cut. The FC-330 Magnum does it all with only a few minutes setup between tasks.

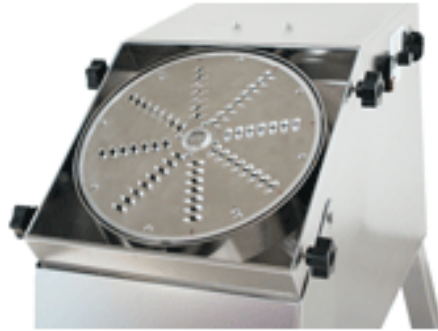

Perfect performance on produce, fruits, cheese, mushrooms, berries, nuts, dry bread and more!

- Capacity to 7,700 lb/hr
- 13" diameter feeder opening and processing discs accommodate large items such as whole heads of cabbage without precutting.
- Special feeder available for whole loaves of cheese, up to 4.5" x 5" x 12" in size.
- Strong 4 HP motor
- Variable speed control from 60—300 rpm for precise results on both soft and hard products.
- 30 processing plates available

FC-330 with cheese feeder for loaves up to 4.5" x 5" x 12" in size

Voltage: 208-240V, 60 Hz, 3-phase, 20 Amp
 Size: L= 40" W= 22" H= 52"
 Shipping Weight: 300 lb (approx)

Processing chamber with 13" shredding disc.

Bulk hopper for continuous feeding of potatoes, onions, tomatoes, etc...
