PRODO-LIFT

BUCKET ELEVATOR CONVEYORS

PRODO-LIFT moves and stores small parts that are produced faster than they can be used.

PRODO-LIFT permits filling from any number of feed stations . . . simplifies and speeds batching operations . . . discharges materials to two or more blenders.

PRODO-LIFT handles all free-flowing bulk materials safely, smoothly, quickly. Buckets can't fall off because they are totally guided and interlocked.

PRODO-LIFT ends jamming of equipment and crushing of product.

For every packaging machinery and conveyor equipment need—standard or custom, individual machine or fully integrated system—telephone or write the leading specialists in the field:

BUCKET DIMENSIONS AND CAPACITIES						
MODEL	BUCKET VOL.	C.F.M.	BUCKET DIMENSION			
			"A"	"B"	"C"	"L"
