PDC SHRINKSEALER MODEL 50

applies heat shrinkable seals or labels at the rate of up to 100 per minute. The rate depends on the shape of containers and type of seals or labels. Other models are available for higher rates. Also, special modifications of the basic design are available for unique applications. The machine is powered by a single pneumatic cylinder and is fully mechanically synchronized. It does not employ any suction cups for opening the bands. Made in USA.

Max. Band Dia. 3"

Max. Band Height 2 1/4"

Air Consumption: (at full speed) 3 CFM at 50 PSI

Timing Screw Drive: 1/4 HP 120 VAC, with Solid State Speed Controller

Optional Equipment: Perforators
Tear Tab Cutters
Shrink Tunnels
