PDC SHRINKSEALER MODEL 75

applies heat shrinkable seals or labels at the rate of up to 350 per minute. The rate depends on the shape of containers and type of seals or labels. Other models are available for higher and lower rates and special modifications of the basic design are available for unique applications. The machine is fully mechanical and does not employ any pneumatic components or suction cups. Made in USA under U.S. Patent No. 3,924,387.

Model	Band Feed	Max. Band Dia.	Max. Band Height	Band Registration
75-M	Mechanical	3"	2¼"	No
