

High Volume, Low Price.

AD-2800

AUTOMATIC WIPE-ON APPLICATOR

For Labeling Top, Bottom, Side,
and Spot Areas of Flat, Cylindrical,
and Convex Packages & Products

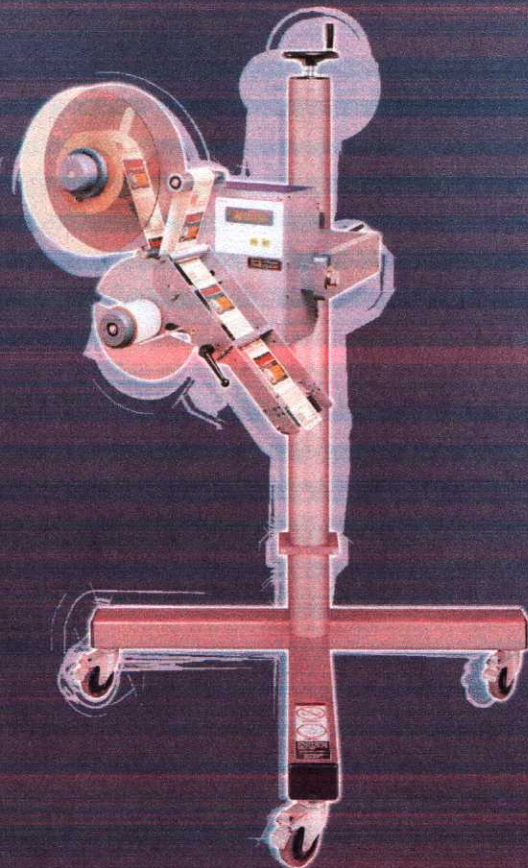

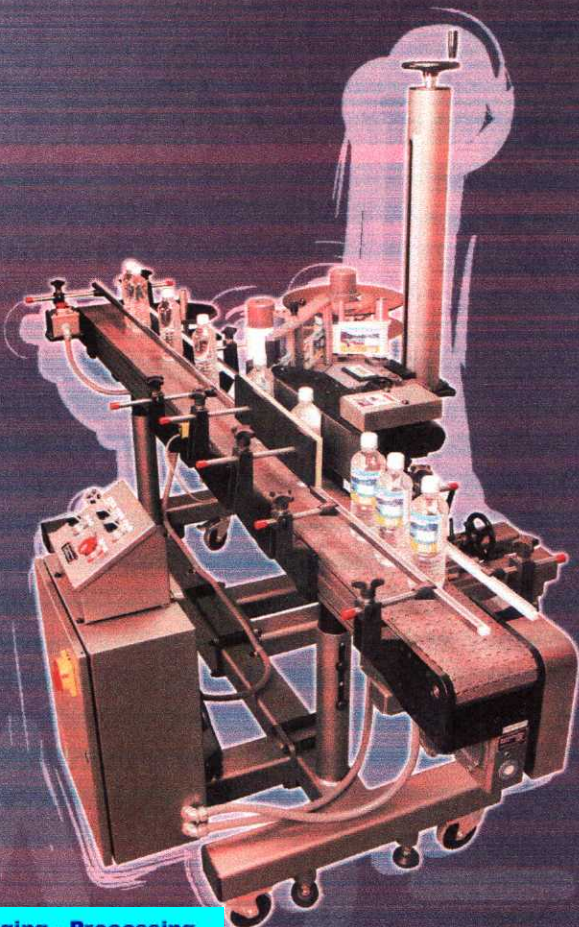

AD-2800 AUTOMATIC LABEL APPLICATOR

Built for speed and high-volume, the AD-2800 label applicator can help you get your product to market - fast!

Self-contained, easy to set up, and built to last with heavy-duty metal construction, the AD-2800 maintains its precise $\pm .03$ " placement throughout high-volume runs at speeds of up to 24 inches per second. It can be fully integrated into an existing production line in any orientation, including upside-down, or can be easily mounted on a stand, wheeled into place, and set to work for a three shift day. The AD-2800 uses a roller or brush mechanism to "wipe" labels directly onto products such as poly bags of soft goods, blister boxes, cans, cardboard boxes, cases, drums, and jars.

OPTIONS AVAILABLE FOR AD-2800

- ◆ Choice of Product Sensors
- ◆ T-Base Stand for Floor Mount
- ◆ Variable Speed Conveyor
- ◆ Conveyor Stand combination mount
- ◆ Interface for Ink and Foil/Hot Stamp Imprinter

AD-2800 BOTTLE LABELING SYSTEM

QuickLabel's newest private label bottling solution is a turnkey bottle labeling system. The high-speed AD-2800 labels up to 120 bottles per minute and accurately places the labels to within $\pm .03$ " of their target mark. As a bottle labeler, the AD-2800 is integrated with a variable speed conveyor that can be married to an existing bottle filling line. Filled and capped bottles travel to the point of label application, paced by a metering wheel to ensure that bottles reach the applicator as soon as it is free. The AD-2800 automatically applies a label when it senses the leading edge of a passing bottle. The label is cleanly and consistently wiped into place as the bottle is conveyed and turned through the wrap station. Labeled bottles are smoothly discharged from the conveyor and onto the optional 48" accumulation table which holds the finished bottles for packing.

The AD-2800 Bottle Labeling System is designed to accommodate plastic and glass bottles of various sizes, and is compatible with many types of paper and synthetic labels.

- ◆ Speed: 120 bottles per minute
- ◆ Accuracy: $\pm .03$ " of target
- ◆ Construction: All metal for continuous production

SPECIFICATIONS

Speed: 1400 inches per minute (35,560mm) – 7,000 feet per hour!

Registration Accuracy: $\pm .03$ " of target mark (1/32 inch)

Sensing: Choice of Thru-Beam, Reflective, or Fiber-Optic

Gap Setting: Label Gap Parameters are digitally set by user at LCD keypad interface

Reloading: Direct path from unwind to rewind

Label Roll Size:

14" Maximum Outside Diameter

3" Inside Diameter (Core Size)

Label Size Range: 0.75" - 5" Width; 0.75" - 12" Length

Motor Type: Stepper

Dimensions: 24" H x 26.5" W x 14" D

Weight: 65 lbs

Power Requirements: 115 VAC, 60Hz, 3A

STANDARD SYSTEM OPTIONS

T-Base Stand for Floor Mount

Choice of Product Sensors

Variable Speed Conveyor

Conveyor Stand Combination mount

Interface for Ink and Foil/Hot Stamp Imprinter

BOTTLING SYSTEM COMPONENTS

AD-2800 Automatic Label Applicator: Roll-On applicator automatically applies bottle labels at up to 120 bottles per minute.

Bottle Turner: Rotates bottles for application. 4" wide x 18" long

Variable Speed Conveyor: Carries product to point of application, feeds into accumulating table which is 3.75" wide x 6', 8', or 10' long. Conveyor stand comes with height adjustment, guide rails to control progress of bottles, e-stops to automatically stop movement of conveyor, caster wheels for mobility within the production facility, and locks to fix system in place.

Metering Wheel: Regulates the pace of bottle movement.

Rotary Accumulation Table – Integrated table collects labeled bottles from conveyor and holds them in preparation for casing and packing. Optimizes bottle collection in a minimum of space.

FACTORY-DIRECT SUPPORT

AD-2800 Labeling Systems are backed by QuickLabel's Factory-Direct Service and Support, with Field Service Assistance, 24-Hour Telephone and Online Support from the same team that designs and manufactures each system.

WARRANTY

All AD-2800 applicator systems are covered by QuickLabel's Warranty on parts and workmanship for a period of one full year.
