

The Automated Material Solution For Faster, Easier, More Efficient Packaging

Instasheeter™ Automated System

The Versatile Solution For On-Line or Off-Line Material Converting

Instasheeter™ Automated System

The Instasheeter™ system is ideally suited for on-line and work cell packaging applications. At the touch of a footswitch, it quickly converts rolls of Bubble Wrap® brand cushioning and Cell-Aire® foam products into custom cut sheets that provide excellent surface protection, cushioning or dunnage for small to medium voids.

The Instasheeter™ system improves overall production efficiency at the packing station.

Instaslitter™ Material-Roll-Slitter Equipment Option

The Instaslitter™ equipment option, combined with the Instasheeter™ system, will automatically dispense multi-slit sheets from one standard 24" roll of flexible wrap material.

Easy To Use

Desired web output widths are easy to set or re-adjust, and the device can be quickly engaged or disengaged in seconds without the use of additional tools.

Maximum Versatility

Converts many Sealed Air® flexible wrap materials from 1/2" to 1/2" thick, in widths up to 24". Changes easily from one material to another without adjustments.

Saves Labor

Produces up to 68 ready-to-use sheets per minute (size dependent). Operator can pack directly from Instasheeter™ system into box, resulting in more packs per hour with fewer people.

Controls Material

Computerized control panel can be programmed for batch mode or pre-selected sheet sizes to eliminate waste and reduce material costs.

Just-In-Time Packaging

Provides packaging materials on-line, on-site and on-demand, saving storage space, reducing inventory requirements and improving overall production efficiency at the packing station.

System Specifications

Machine Size	44" wide x 32" long x 69" high (81" with adjustable stand)
Weight	485 lbs.
Power	7 AMP
Production Rate	36 sheets 24" long — one minute 52 sheets 12" long — one minute 68 sheets 6" long — one minute
Material Width Limits	6" minimum, 24" maximum
Options	<ul style="list-style-type: none">• Instaslitter™ material-roll-slitter Size: 25" wide x 8.5" long x 5.25" high Weight: 30 lbs.• Unwind stand for 96" jumbo material rolls• Consult Sealed Air for additional available options to suit your needs.
