

# Sealed Air Shrink Packaging

## Films

**Cryovac®**  
**Opti®**  
**CorTuff®**

The industry's most comprehensive line of specialty films, Cryovac®, Opti® and CorTuff® shrink films.

Sealed Air's range of films offer superior shrink, strength and merchandising appeal for protection of everything from industrial goods to consumer products.

Sealed Air pioneered co-extrusion and electronic cross linking. These technologies make possible the variety of film options needed for practically any application, especially down gauging materials without sacrificing performance.

Our full line includes

- General Purpose
- Abuse Resistant
- Soft Shrink
- High-speed
- Oxygen Barrier
- Anti-fog

## Equipment

**Shanklin®**  
**Opti®**  
**Conflex®**

Sealed Air is regarded as the premier equipment supplier to the shrink packaging industry. Our systems represent the

broadest line of equipment for both large and small operations. Equipment is designed to maximize packaging flexibility, versatility and efficiency.

Sealed Air carries an inventory of equipment parts allowing you to receive parts quickly, when and where you need them.

Our full line includes systems for

- Any throughput requirement
- Large or small products
- Plug-and-play modularity for maximum flexibility, efficiency and value

▲ Opti® Tunnel

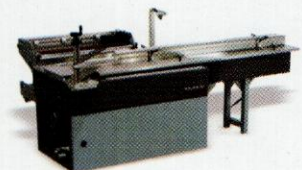

▲ Opti® Wrapper

◀ Shanklin® Single-Belt Infeed

▲ Shanklin® Omni with Harmonic Infeed

▲ Shanklin® 8-foot Flighted Infeed

# The Total Package

## Your one-stop, single-source supplier

# 1

Sealed Air is the **industry's only integrated** packaging material and equipment systems manufacturer—the total shrink packaging solution. Sealed Air has the **broadest line of film solutions** giving you the flexibility to invest in a system solution that meets your **complete shrink packaging needs**. With Sealed Air, your system will work everyday, meeting every packaging demand.

## Partnership—Improved packaging and reduced costs

# 2

Through a partnership with Sealed Air and our extensive distribution network, we'll work with you to identify ways to improve your packaging process and **lower your total packaging costs**.

We'll review your packaging process to identify

- Production Line Efficiency Improvements
- Equipment Upgrade Improvements
- Preventative Maintenance Recommendations
- Film Gauge and Width Reduction Opportunities
- Pre-perforated Film Opportunities

## Delivering value, time after time

# 3

Our shrink **films** and **equipment** systems are **designed** and manufactured **to work together**. In addition, Sealed Air provides the industry's most effective and comprehensive distribution network of packaging materials and resources. This means less down time when you need repairs or materials delivered quickly.

Our total systems customers enjoy additional benefits

- OEM Preventative Maintenance Programs
- Rapid Distributor Inventory Management Programs
- Experienced Technical Service Expertise
- Access to our Shrink Packaging Laboratory and Experienced Engineers and Applications Specialists
- Global Reach with Shrink Packaging Professionals in More Than 50 Countries

# Creating World Class Packaging Solutions

Sealed Air is a leading global manufacturer of a wide range of fresh food, protective and specialty packaging products. Reaching nearly 80 percent of the world's population, many Sealed Air brands are among the most respected names in their markets.

Our products protect and preserve our customers' products from the plant or warehouse through the rigors of the distribution chain. A number of Sealed Air products also provide an appealing merchandising presence for retail display.

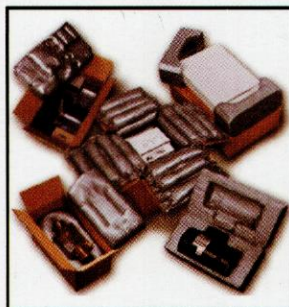

Sealed Air's industry-leading investment in research and development and constant focus on World Class Manufacturing principles allow us to continue to deliver innovative packaging solutions that add measurable value to our customers' businesses around the world.
