## Popped-Corn Filling Machine Model COR-466-W

This low cost machine is specifically designed for the weighing and packaging of popped corn, cheese corn, corn curls, and other light-weight products.

### • Fast

- Variable speed filling.
- 10 to **18 or more** fills per minute.

### • Accurate

- Volume cup leveling.
- Hopper agitation delivers product evenly.

### • Quiet

- Less operator fatigue.
- Higher productivity.

### • Typical Range of Weights and Speeds

- Popped Popcorn: 1 $\frac{3}{4}$  oz. to 12 oz. at 20 to 10 per minute.
- Corn Curls: 4 $\frac{1}{2}$  oz. to 2 lb. at 24 to 12 per minute.
- Cheese Corn: 2 $\frac{1}{2}$  oz. to 1 lb. at 24 to 12 per minute.
- Carmel Corn: 6 oz. to 2 $\frac{1}{2}$  lb. at 35 to 20 per minute.

### • Easy to Operate and Clean

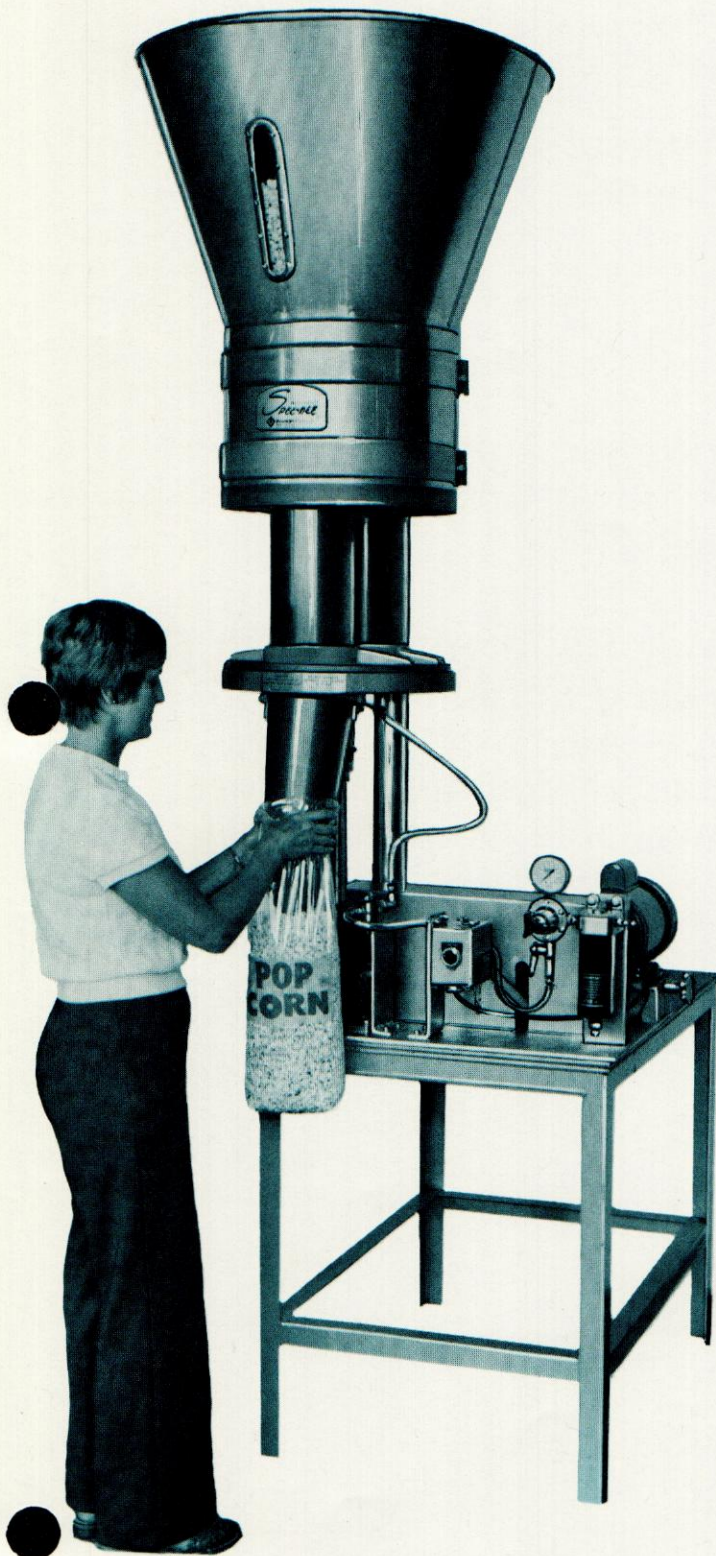

- Cup holder and bottom plate can be lowered quickly for cup removal.
- Can be replaced with no further adjustment.
- Fine screw adjustment for minor weight and volume changes.

### • Bag Bottom Opening Device

- Blows open entire bag prior to discharge.
- Assures rapid and complete filling of lightweight products.

### • Windowed Hopper

- To observe product.

#### Approximate Overall Dimensions

Width: 37"

Height: 73"

Depth: 32"

Standard Hopper: 4 cu. ft.
