

# Our in-line rotary labeler that applies a single body label to round containers.

If you want precise registration of a single body label at speeds up to 200 bottles-per-minute without a big capital investment, then you must consider the SM 2000.

## Major features of the SM 2000 include:

- Simple, low cost, accurate label placement.
- Handles plastic and glass containers.
- Handles paper and foil labels.
- Left or right infeed.
- Can be equipped to label flat or square containers.
- Low maintenance and minimum change-over.
