# Stokes 328 TABLET PRESS

*Rugged design makes press extremely durable*

*Easy to maintain; simple to change over*

*Replacement parts are economical and in stock*

*Unique "neck-less" tool design allows machine to compress difficult materials*

## *Tablet Press Features*

*Sealed press rolls equipped with sealed roller bearings and races eliminate the need for lubrication*

*Confined compacting section encloses dust resulting in simplified cleaning and increased operator safety*

*Automatic lubrication for longer life of moving parts*

*Choose from gravity-type or mechanical feeder for optimum weight control*

*Optional two layer compacting affords greater flexibility*

*Optional automatic memory recall to quickly adjust press to desired settings*

*Optional core rod tooling allows for the production of tablets with full or partial holes*

\*On April 5, 2005 CCS acquired the Stokes' company including the brand name, parts inventory, equipment inventory, drawings, technical data and all other tangible and intangible assets. Stokes equipment is manufactured in the CCS facility in Huntingdon Valley, PA.
