

Model 1219

Machine is pictured with optional volumetric filler and thermal transfer printer.

Model 1219 - High-speed vertical, form, fill and seal machine

The Model 1219 is an economical, high speed, versatile and easy to use bagging system, perfect for packaging all kinds of small parts, dry goods, processed foods, etc. It is a fully automated system with adjustable dwell time and built in cycle and batch counters. The touch-screen control panel provides easy operator use, with built in alarm and warnings displayed for troubleshooting and optimum safety.

The rotary style reciprocating sealing head enables high speed runs. Utilizing polypropylene flat film the Model 1219 can produce up to 60 bags per minute. The dual tube configuration and automated feeding can yield up to 120 bags per minute.

Model 1219

SPECIFICATIONS

Model	DIMENSIONS			PACKAGE SIZES		STANDARD ELECTRICAL REQUIREMENTS	STANDARD AIR REQUIREMENTS
	D	W	H	Min.	Max.		
1219-6	52"	33"	48"	1 1/2" X 2"	6" X 8"	240 VAC, Single Phase & 20 amps	4 CFM @ 80 PSI
1219-10	56"	39"	52"	1 1/2" X 2"	10" X 10"	240 VAC, Single Phase & 20 amps	4 CFM @ 80 PSI

Note: Dimensions and specification requirements may change with system additions / options.

FEATURES

- ▶ Includes one round forming tube (oval style available)
- ▶ Rotary style reciprocating sealing head for higher speed
- ▶ 1/2" wide crimp seal jaws for supported film
- ▶ Touch-screen control panel, with built in alarm displays
- ▶ NEMA 12 Electrical enclosure
- ▶ Polished stainless steel product contact surface
- ▶ Moving parts supported by linear and radial bearings
- ▶ Material tensioning system with pneumatic brake
- ▶ Pneumatic and electrical safety lockouts
- ▶ Built in cycle and batch counters
- ▶ No tools required for material changeovers

OPTIONS

- ▶ Heavy duty locking casters
- ▶ Thermal transfer printers and coders
- ▶ Oval style forming tube
- ▶ Volumetric fillers, weigh scales and various standard and custom feeding equipment is available
- ▶ Photo Electric eye for print registered material
