

V106 Horizontal Cartoner

Description

Fully Automatic cartoning system that is suitable for small to medium sized product range, suitable for the food, cosmetic, pharmaceutical or other cartoning applications.

The **V 106** works in an intermittent motion, picking up pre-glued cartons from magazine.

Size changeover is modern and easy and aided by digital indicators.

Ends are closed using the tuck-in system, with Hot-melt glue or mixed.
